

INDEX TO VOLUME 34

Subject entries are made for all articles. Author entries are made for original articles. Book Reviews and Obituaries are indexed under these headings in their alphabetical order under the letters B and O, respectively.

- Abdomen:** See Gastrointestinal Tract; etc.
Abnormalities and Deformities: See Monsters; and under names of organs and regions, as Lungs, abnormalities; etc.
Abscess: See under names of organs and regions
Abstracting and indexing: 609
Acid, formic: elastic tissue; description of method for isolation of elastic tissue, 807
Ackerman, L. V.: Acute pancreatitis following blood transfusion, 1065
Adenopathy: See under Lymph Nodes
Adrenals: adrenal cortex in essential hypertension, 1031
Aegerter, E. E.: Kaposi's sarcoma; critical survey, 413
Age: elastic properties of rabbit aorta in relation to age, 262
elastic tissue; study of elasticity and tensile strength of elastic tissue isolated from human aorta, 971
regeneration of rat liver at different ages; metabolism of embryonic, neonatal and regenerating rat liver, 208
Air Passages: See Respiratory Tract
Allergy: See Anaphylaxis and Allergy
Altschul, R.: Atrophy, degeneration and metaplasia in denervated skeletal muscle, 982
Amyloid: studies of; isolation of polysaccharide from amyloid-bearing tissues, 92
Anaphylaxis and Allergy: See also Asthma; etc.
sudden death following injection of foreign protein, 849
Anderson, T. F.: Bacterial morphology as shown by electron microscope; structural differentiation within bacterial protoplasm, 199
Anemia, splenic: congestive splenomegaly (Banti's disease) due to portal stenosis without hepatic cirrhosis; aneurysms of splenic artery; report of case with necropsy, 423
Anencephaly: See Monsters
Aneurysm, congestive splenomegaly (Banti's disease) due to portal stenosis without hepatic cirrhosis; aneurysms of splenic artery; report of case with necropsy, 423
Angevino, D. M.: Influence of various types of immunization on genesis of experimental hemolytic streptococcus arthritis, 18
Antibodies: See Antigens and Antibodies
Antigens and Antibodies: See also Immunity; and under specific antigens and reactions nucleoprotein antigen of vaccine virus; new antigen from elementary bodies of vaccinia, 275
Antiserum: See under names of various diseases
Aorta, elastic properties of rabbit aorta in relation to age, 262
elastic tissue; description of method for isolation of elastic tissue, 807
elastic tissue; study of elasticity and tensile strength of elastic tissue isolated from human aorta, 971
Aorta—Continued
fibrinoid necrosis in arteriosclerosis, 365
Sclerosis: See Arteriosclerosis
syphilis of aorta and coronary arteries, 745
transposition of aorta and pulmonary artery; embryologic study of its cause, 1016
Appointments, 469, 788, 934
Arachnoid, fibrosarcoma of arachnoidal origin with metastases; report of 4 cases with necropsy, 240
Aronson, H. G.: Pancreodocholecystostomy and experimental production of gallstones, 843
Aronson, J. D.: Relationship of coccidioidomycosis to calcified pulmonary nodules, 31
Arteries: See also Aneurysm; Aorta; Arteriosclerosis; Blood pressure; etc.
pulmonary; transposition of aorta and pulmonary artery; embryologic study of its cause, 1016
study of lesions in occluding peripheral sclerosis, with note on Mönckeberg's sclerosis, 989
syphilis of aorta and coronary arteries, 745
Arteriosclerosis, experimental cholesterol atherosclerosis in omnivorous animal, the chick, 937
experimental studies in cardiovascular pathology; pectin atheromatosis and thesaurosis in rabbits and in dogs, 883
fibrinoid necrosis in, 365
heretofore unrecognized mechanical principle effective in aortic sclerosis, 965
obliterans; study of lesions in occluding peripheral sclerosis, with note on Mönckeberg's sclerosis, 989
relationship of heart size to cholesterol content in experimental atheromatosis of rabbit, 875
Arthritis, influence of various types of immunization on genesis of experimental hemolytic streptococcus arthritis, 18
Ashburn, L. L.: Spontaneous coccidioidal granuloma in lungs of wild rodents, 791
Asthma: See also Anaphylaxis and Allergy
sudden death following injection of foreign protein, 849
Atheroma: See Arteriosclerosis
Atherosclerosis: See Arteriosclerosis
Atrophy: See also under names of organs and regions
degeneration and metaplasia in denervated skeletal muscle, 982
Avitaminosis: See under Vitamins
Awards, 469, 609, 934
- B C G:** See under Tuberculosis
Bacilli: See Bacteria
Bacteria: See also under Streptococci; Tubercle Bacilli; Viruses; etc.
bacterial morphology as shown by electron microscope; structural differentiation within bacterial protoplasm, 199
Baker, A. B.: Metastatic tumors of nervous system, 495
Banti's Disease: See Anemia, splenic
Barnes, R. W.: Carcinoma of prostate; correlation between histologic observations and clinical course, 473
Becks, H.: Effect of thyroxin and anterior pituitary growth hormone on endochondral ossification; species used: rat, 334

GENERAL INDEX

- Beeman, J.: Notes on identification of seminal stains by means of Florence reaction, 932
 Benzanthracene, comparative pathology of induced tumors of salivary glands, 613
 Benzyrene, comparative pathology of induced tumors of salivary glands, 613
 Bile Ducts: See also Gallbladder
 effect of parabiosis on hepatic changes following obstruction of common bile duct in rats, 196
 Blanchard, J.: Regeneration of rat liver at different ages; metabolism of embryonic, neonatal and regenerating rat liver, 208
 Blood: See also Leukocytes
 Diseases: See Anemia; Hemopoietic System; Leukemia; etc.
 effects of radiation on blood and hemopoietic tissues, including spleen, thymus and lymph nodes, 562
 pressure; heretofore unrecognized mechanical principle effective in aortic sclerosis, 965
 pressure, high; adrenal cortex in essential hypertension, 1031
 transfusion, acute pancreatitis following, 1065
 Vessels: See Arteries; Cardiovascular System; etc.
 Blumberg, H.: Production of cirrhosis of liver in rats by feeding low protein, high fat diets, 1035
 Blumenthal, H. T.: Effects of progesterone on sex organs and on production of placenta in female guinea pig, 49
 Bones: See also under names of bones
 Diseases: See Osteitis
 effect of thyroxine and anterior pituitary growth hormone on endochondral ossification; species used: rat, 334
 mechanism of parathyroid hormone action, 625
 multiple myeloma with unusual visceral involvement, 546
 skeletal abnormalities induced in rats by maternal nutritional deficiency; histologic studies, 375
- Books REVIEWS:
- Atlas of Dental and Oral Pathology; J. L. Bernier and others, 789
 - Atlas of Ophthalmic Pathology; E. DeCoursey and others, 789
 - Atlas of Otolaryngic Pathology; J. E. Ash and others, 789
 - Biology of Negro; J. H. Lewis, 470
 - Blood Grouping Technic; F. Schiff and W. C. Boyd, 1086
 - Dynamic State of Body Constituents; R. Schoenheimer, 935
 - Immunochemistry; W. C. Boyd and others, 471
 - Medical Parasitology; J. T. Culbertson, 1087
 - Modern Attack on Tuberculosis; H. D. Chadwick and A. S. Pope, 611
 - Necropsy: Guide for Students of Anatomic Pathology; B. Halpert, 471
 - Occupational Tumors and Allied Diseases; W. C. Hueper, 610
 - Pathology of Trauma; A. R. Moritz, 610
 - Spontaneous and Experimental Leukaemia in Animals; J. Engelbreth-Holm, 935
 - Synopsis of Pathology; W. A. D. Anderson, 1086
 - Textbook of Histology; A. A. Maximow and W. Bloom, 471
- Books received, 472, 612, 790, 936, 1088
 Boron Compounds, elements necessary for plant growth, 467
 Brain: See also Corpus Striatum; Nervous System; Thalamus; etc.
 encephalomalacia with cavity formation in infants, 286
 heterotopic brain tissue in lungs of 2 anencephalic monsters, 1009
- Brain—Continued
 tumors of striatothalamic and related regions; their probable source of origin and more common forms, 674
 Bremer, J. L.: Transposition of aorta and pulmonary artery; embryologic study of its cause, 1016
 Brown, A. F.: Carcinoma of prostate; correlation between histologic observations and clinical course, 473
 Bunting, C. H.: Pulmonary apical scar; inquiry, 67
- Calciification, arteriosclerosis obliterans; study of lesions in occluding peripheral scleroses, with note on Mönckeberg's sclerosis, 989
 metastatic, in osteitis deformans (Paget's disease of bone), 435
- Calcium and Calcium Compounds, pathologic effects produced by deficiency of single metallic and nonmetallic elements, 453
- Calculus: See under Gallbladder
- Camaller, W., Jr.: Reduction of pulmonary resistance to infection by circulating toxins, 801
- Cancer: See also Sarcoma; Tumors; etc.; and under names of organs and regions, as Lungs; etc.
 carcinoma of prostate; correlation between histologic observations and clinical course, 473
 fellowships in cancer research, 1085
 prize for cancer research, 1085
- Carbohydrates: See Saccharides
- Carcinoma: See Cancer
- Cardiovascular System: See also Arteries; Heart; etc.
 effects of radiation on, 1070
 experimental studies in cardiovascular pathology; pectin atheromatosis and thesaurosis in rabbits and in dogs, 883
- Cecil, R. L.: Influence of various types of immunization on genesis of experimental hemolytic streptococcus arthritis, 18
- Cells: See also Protoplasm; Tissue; etc.
 effects of radiation on, 446
- Cellulose, experimental studies in cardiovascular pathology; pectin atheromatosis and thesaurosis in rabbits and in dogs, 883
- Chemotaxis: See Leukocytes
- Chlorine, pathologic effects produced by deficiency of single metallic and nonmetallic elements, 459
- Cholesterol, experimental atheromatosis in omnivorous animal, the chick, 937
 relationship of heart size to cholesterol content in experimental atheromatosis of rabbit, 875
- Choline and Choline Derivatives, renal changes in albino rat on low choline and choline-deficient diets, 633
- Chomel, B.: *Oxyuris vermicularis* infection of wall of fallopian tube, 742
- Chorionic Gonadotropin: See Gonadotropins
- Choroid Plexus, papilloma of; report of case and summary of recorded cases, 911
- Christensen, K.: Renal changes in albino rat on low choline and choline-deficient diets, 633
- Churg, J.: Multiple myeloma with unusual visceral involvement, 546
- Cicatrix, pulmonary apical scar; inquiry, 67
- Cobalt, pathologic effects produced by deficiency of single metallic and nonmetallic elements, 464
- Coccidioides, spontaneous coccidioidal granuloma in lungs of wild rodents, 791
- Coccidioidomycosis: See Coccidioidosis

- Coccidioidosis, coccidioidomycosis in states other than California, with report of case in Louisiana, 484
 relationship of coccidioidomycosis to calcified pulmonary nodules, 31
- Communicable Diseases: See Immunity; Syphilis; etc.
- Copper, pathologic effects produced by deficiency of single metallic and nonmetallic elements, 460
- Corpus Striatum, tumors of striatothalamic and related regions; their probable source of origin and more common forms, 674
- Cranium, fracture; traumatic hemorrhage into pituitary gland, 431
- Crawford, A. S.: Traumatic hemorrhage into pituitary gland, 431
- Cystadenoma lymphomatous, papillary, 833
- Cysts: See under names of organs and regions
- Dauber, D. V.: Experimental cholesterol atheromatosis in omnivorous animal, the chick, 937
- Death, sudden, following injection of foreign protein, 849
- Dempsey, W. S.: Adrenal cortex in essential hypertension, 1031
- Diabetes Mellitus, biochemical factors in inflammation and diabetes mellitus, 182
- Digestive System: See Gastrointestinal Tract; Intestines; Stomach; etc.
- Dunlap, C. E.: Effects of radiation on blood and hemopoietic tissues, including spleen, thymus and lymph nodes, 562
- Dyes: See Stains and Staining
- Education, teaching of experimental pathology, 75
- Emmons, C. W.: Spontaneous coccidioidal granuloma in lungs of wild rodents, 791
- Encephalomyelitis, equine (Western) in man; histologic and anatomic study, 1050
- Endocardium: See Heart
- Erythrocytes: See Anemia; etc.
- Estrogens, anatomic changes in prostate of patients with cirrhosis of liver, 735
- Estrus, effects of progesterone on sex organs and on production of placentoma in female guinea pig, 49
 variation of vitamin A fluorescence in cyclic changes of ovary, 647
- Evans, H. M.: Effect of thyroxin and anterior pituitary growth hormone on endochondral ossification; species used: rat, 334
- Evans, N.: Carcinoma of prostate; correlation between histologic observations and clinical course, 473
- Extremities, blood supply; study of lesions in occluding peripheral sclerosis, with note on Mönckeberg's sclerosis, 989
- Fallopian Tube, *Oxyuris vermicularis* infection of wall of, 742
- Fat, production of cirrhosis of liver in rats by feeding low protein, high fat diets, 1035
- Fellowships in cancer research, 1085
- Fibrin, fibrinoid necrosis in arteriosclerosis, 365
- Fibrosarcoma of arachnoidal origin with metastases; report of 4 cases with necropsy, 240
- Fish, tumors of nerve sheaths in fish of snapping family (*Lutjanidae*), 133
- Fisher, H. R.: Arteriosclerosis obliterans; study of lesions in occluding peripheral sclerosis, with note on Mönckeberg's sclerosis, 989
- Florence Reaction: See under Semen
- Fluorescence, variation of vitamin A fluorescence in cyclic changes of ovary, 647
- Follis, R. H., Jr.: Pathologic effects produced by deficiency of single metallic and nonmetallic elements, 451
- Food: See Nutrition; Vitamins
- Forensic Medicine: See Jurisprudence, Medical
- Fractures: See under Cranium
- Freund, J.: Standardization of tuberculin with aid of guinea pigs sensitized by killed tubercle bacilli in liquid petrolatum, 73
- Friedberg, L.: Relationship of heart size to cholesterol content in experimental atherosclerosis of rabbit, 875
- Friedman, N. B.: Effects of radiation on gastrointestinal tract, including salivary glands, liver and pancreas, 749
- Furth, J.: Teaching of experimental pathology, 75
- Gallbladder: See also Bile Ducts
 calculi; pancreodocholecystostomy and experimental production of gallstones, 843
- Gallium, elements necessary for plant growth, 467
- Gastrointestinal Tract: See also Intestines; Stomach; etc.
 effects of radiation on gastrointestinal tract, including salivary glands, liver and pancreas, 749
- Globus, J. H.: Tumors of striatothalamic and related regions; their probable source of origin and more common forms, 674
- Goldstein, P.: Syphilis of aorta and coronary arteries, 745
- Gonadotropins, effect of chorionic gonadotropin on spread of particulate substances in skin of rabbits, 151
- Gordon, A. J.: Multiple myeloma with unusual visceral involvement, 546
- Gottschall, R. Y.: Standardization of tuberculin with aid of guinea pigs sensitized by killed tubercle bacilli in liquid petrolatum, 73
- Grady, H. G.: Production of cirrhosis of liver in rats by feeding low protein, high fat diets, 1035
- Graham, E. A.: Developmental abnormalities of lung and bronchogenic carcinoma, 301
- Grants and awards, 469, 609
- Granuloma, Coccidioidal: See Coccidioides
- Grayzel, D. M.: Papillary cystadenoma lymphomatous, 833
- Grill, J.: Recklinghausen's disease with unusual symptoms from intestinal neurofibroma, 902
- Growth, effect of thyroxin and anterior pituitary growth hormone on endochondral ossification; species used: rat, 334
- Harris, W. H., Jr.: Comparison of pathologic observations in Well's disease and in yellow fever, 663
- Hass, G. M.: Elastic tissue; description of method for isolation of elastic tissue, 807
 Elastic tissue; study of elasticity and tensile strength of elastic tissue isolated from human aorta, 971
 Studies of amyloid; isolation of polysaccharide from amyloid-bearing tissues, 92
- Haymond, J. L.: Traumatic hemorrhage into pituitary gland, 431
- Heart: See also Cardiovascular System; Myocarditis; etc.
 relationship of heart size to cholesterol content in experimental atherosclerosis of rabbit, 875
 secondary tumors of, 358
 susceptibility of heart of rabbit to specific infection in viral diseases, 319
 transposition of aorta and pulmonary artery; embryologic study of its cause, 1016
 weight of normal human heart, 820

GENERAL INDEX

- Heilman, L. M.: Effect of parabiosis on hepatic changes following obstruction of common bile duct in rats, 196
- Hemoglobin and Hemoglobin Compounds: See Anemia; Blood
- Hemopoietic System: See also Anemia; Leukemia; etc. effects of radiation on blood and hemopoietic tissues, including spleen, thymus and lymph nodes, 562
- Herbut, P. A.: Secondary tumors of heart, 358
- Hertig, A. T.: Bilateral cortical necrosis of kidney; report of 2 cases, 866
- Hill, J. H.: Congestive splenomegaly (Banti's disease) due to portal stenosis without hepatic cirrhosis; aneurysms of splenic artery; report of case with necropsy, 423
- Histoplasmosis, experimental, in mice, 229
- Hoagland, C. L.: Nucleoprotein antigen of vaccine virus; new antigen from elementary bodies of vaccinia, 275
- Holley, S. W.: Metastatic calcification in osteitis deformans (Paget's disease of bone), 435
- Hormones, Estrogenic: See Estrogens
- Hu, C. H.: Use of supravital staining technic in study of tumors of lymphosarcoma group, 106
- Hueper, W. C.: Experimental studies in cardiovascular pathology; pectin atheromatosis and thesaurosis in rabbits and in dogs, 883
- Hurwitz, M.: Relationship of heart size to cholesterol content in experimental atherosclerosis of rabbit, 875
- Hydrocarbons, comparative pathology of induced tumors of salivary glands, 613
- Hydrogen Ion Concentration, biochemical factors in inflammation and diabetes mellitus, 182
- Hypersensitivity: See Anaphylaxis and Allergy
- Hypertension: See Blood pressure, high
- Hypophysis: See Pituitary Body
- Immunity: See also Anaphylaxis and Allergy; Antigens and Antibodies; etc. reduction of pulmonary resistance to infection by circulating toxins, 801
- Indexing and abstracting, 609
- India Ink: See under Skin
- Indians, American; relationship of coccidioidomycosis to calcified pulmonary nodules, 31
- Infants, parathyroid gland in, 1042
- Infection: See Immunity; Viruses; and under names of bacteria, as Streptococci; etc.
- Inflammation, biochemical factors in inflammation and diabetes mellitus, 182
- Injuries: See under names of organs and regions, as Cranium; etc.
- Insulin: See Diabetes Mellitus
- Intestines: See also Gastrointestinal Tract Recklinghausen's disease with unusual symptoms from intestinal neurofibroma, 902 studies of spontaneous tumors in guinea pigs; tumors of stomach and intestine, 218
- Iodine and Iodine Compounds, pathologic effects produced by deficiency of single metallic and nonmetallic elements, 465
- Iron, pathologic effects produced by deficiency of single metallic and nonmetallic elements, 460
- Irradiation: See Radiations; and under names of diseases and organs
- Islands of Langerhans: See Pancreas
- Jacobius, H.: Effect of parabiosis on hepatic changes following obstruction of common bile duct in rats, 196
- Journals: See Periodicals
- Jurisprudence, Medical; notes on identification of seminal stains by means of Florence reaction, 932
- Kaplan, E.: Parathyroid gland in infancy, 1042
- Kaposi Sarcoma: See Sarcoma
- Katz, L. N.: Experimental cholesterol atherosclerosis in omnivorous animal, the chick, 937
- Kidneys: See also Urinary Tract bilateral cortical necrosis of; report of 2 cases, 866 mechanism of parathyroid hormone action, 625 renal changes in albino rat on low choline and choline-deficient diets, 633
- Koch's Bacillus: See Tubercle Bacilli
- Kafka, J., Jr.: Heretofore unrecognized mechanical principle effective in aortic sclerosis, 965
- Krumbhaar, E. B.: Spleen in leukemias, 117
- Kuhnenbeck, H.: Tumors of striatothalamic and related regions; their probable source of origin and more common forms, 674
- Kuzma, J. F.: Recklinghausen's disease with unusual symptoms from intestinal neurofibroma, 902
- Langerhans' Islands: See Pancreas
- Lederer, M.: Papillary cystadenoma lymphomatous, 833
- Leukemia, cultivation of human leukemic leukocytes on chorioallantoic membrane of chicken egg, 538 spleen in, 117
- Leukocytes: See also Leukemia; etc. biochemical factors in inflammation and diabetes mellitus, 182 chemotaxis, 167 cultivation of human leukemic leukocytes on chorioallantoic membrane of chicken egg, 538
- Lipids: See Cholesterol; Fat; etc.
- Liver, cirrhosis; anatomic changes in prostate of patients with cirrhosis of liver, 735 cirrhosis; production in rats by feeding low protein, high fat diets, 1035 effect of parabiosis on hepatic changes following obstruction of common bile duct in rats, 196
- effects of radiation on gastrointestinal tract, including salivary glands, liver and pancreas, 749 regeneration of rat liver at different ages; metabolism of embryonic, neonatal and regenerating rat liver, 208
- studies of amyloid; isolation of polysaccharide from amyloid-bearing tissues, 92
- Loeb, L.: Effects of progesterone on sex organs and on production of placentoma in female guinea pig, 49
- Lucké, B.: Tumors of nerve sheaths in fish of snapper family (Lutjanidae), 133
- Lungs: See also Respiratory Tract; etc. abnormalities; developmental abnormalities of lung and bronchiogenic carcinoma, 301 cancer; developmental abnormalities of lung and bronchiogenic carcinoma, 301 effects of radiation on respiratory system, 917 heterotopic brain tissue in lungs of 2 anencephalic monsters, 1009 pulmonary apical scar; inquiry, 67 reduction of pulmonary resistance to infection by circulating toxins, 801
- relationship of coccidioidomycosis to calcified pulmonary nodules, 31

- Lungs—Continued
spontaneous coccidioidal granuloma in lungs of wild rodents, 791
- Tuberculosis: See Tuberculosis, pulmonary
- Lurie, M. B.: Effect of chorionic gonadotropin on spread of particulate substances in skin of rabbits, 151
- Lutianidae: See Snapper
- Lymph Nodes: See also Lymphosarcoma; etc.
clinical significance of pathologic changes in giant follicular lymphadenopathy, 385
effects of radiation on blood and hemopoietic tissues, including spleen, thymus and lymph nodes, 562
papillary cystadenoma lymphomatous, 833
use of supravital staining technic in study of tumors of lymphosarcoma group, 106
- Lymphatic System: See Lymph Nodes
- Lymphocytes: See Leukemia; Leukocytes
- Lymphosarcoma, use of supravital staining technic in study of tumors of lymphosarcoma group, 106
- MacCallum, W. G.: Suprasellar tumors related to pars intermedia of hypophysis, 13
- McCUTCHEON, M.: Chemotaxis, 167
- McGOWAN, L. E.: Encephalomalacia with cavity formation in infants, 286
- Magnesium, pathologic effects produced by deficiency of single metallic and nonmetallic elements, 457
- Maisel, A. L.: Secondary tumors of heart, 358
- Malformations: See under names of organs and regions
- Manganese, pathologic effects produced by deficiency of single metallic and nonmetallic elements, 462
- Menkin, V.: Biochemical factors in inflammation and diabetes mellitus, 182
- Menopause, variation of vitamin A fluorescence in cyclic changes of ovary, 647
- Menstruation, variation of vitamin A fluorescence in cyclic changes of ovary, 647
- Mesothelioma, localized pleural mesothelioma; investigation of its characteristics and histogenesis by method of tissue culture, 951
- Metals, elements necessary for plant growth, 467
pathologic effects produced by deficiency of single metallic and nonmetallic elements, 451
- Methylcholanthrene, comparative pathology of induced tumors of salivary glands, 613
- Micro-Organisms: See Bacteria; etc.
- Microscopy, bacterial morphology as shown by electron microscope; structural differentiation within bacterial protoplasm, 199
- Molybdenum, elements necessary for plant growth, 467
- Monsters, heterotopic brain tissue in lungs of 2 anencephalic monsters, 1009
- Moore, R. A.: Effect of parabiosis on hepatic changes following obstruction of common bile duct in rats, 196
- Mudd, S.: Bacterial morphology as shown by electron microscope; structural differentiation within bacterial protoplasm, 199
- Munslow, R. A.: Traumatic hemorrhage into pituitary gland, 431
- Murray, M. R.: Localized pleural mesothelioma; investigation of its characteristics and histogenesis by method of tissue culture, 951
- Muscles, atrophy, degeneration and metaplasia in denervated skeletal muscle, 982
- Myasthenia Gravis, myocardial lesions in; review and report of case, 557
- Myeloma, multiple, with unusual visceral involvement, 546
- Myocarditis, myocardial lesions in myasthenia gravis; review and report of case, 557
- Myocardium: See Heart
- Necrosis, fibrinoid, in arteriosclerosis, 365
- Nelson, R. C.: Skeletal abnormalities induced in rats by maternal nutritional deficiency; histologic studies, 375
- Neoplasms: See Cancer; Sarcoma; Tumors
- Nephrosis: See under Kidneys
- Nerves: See also Nervous System
atrophy, degeneration and metaplasia in denervated skeletal muscle, 982
tumors of nerve sheaths in fish of snapper family (Lutianidae), 133
- Nervous System: See also Brain; Nerves; etc.
metastatic tumors of, 405
- Neurofibromatosis, Recklinghausen's disease with unusual symptoms from intestinal neurofibroma, 902
- Norris, J. L.: Regeneration of rat liver at different ages; metabolism of embryonic, neonatal and regenerating rat liver, 208
- Nucleoproteins; nucleoprotein antigen of vaccine virus; new antigen from elementary bodies of vaccinia, 275
- Nutrition: See also Vitamins
skeletal abnormalities induced in rats by maternal nutritional deficiency; histologic studies, 375
- Obituaries:**
- Aschoff, Ludwig, 934
 - Brown, Wade H., 609
 - Fischer-Wasels, Bernhard, 469
 - Lohr, Adrien, 788
 - Lyon, Marcus W., Jr., 469
- Olcott, C. T.: Studies of spontaneous tumors in guinea pigs; tumors of stomach and intestine, 218
- Ople, Eugene L., inquiry into certain aspects of, 1
publications from 1898 to 1941, 7
- Ossification, effect of thyroxin and anterior pituitary growth hormone on endochondral ossification; species used: rat, 334
- Osteitis deformans; metastatic calcification in osteitis deformans (Paget's disease of bone), 435
- Ovary, effects of progesterone on sex organs and on production of placentoma in female guinea pig, 49
variation of vitamin A fluorescence in cyclic changes of, 647
- Oxyuriasis: Oxyurus vermicularis infection of wall of fallopian tube, 742
- Paget's Disease: See Osteitis deformans
- Pai, H. C.: Use of supravital staining technic in study of tumors of lymphosarcoma group, 106
- Palik, E. E.: Coccidioidomycosis in states other than California, with report of case in Louisiana, 484
- Pancreas, effects of radiation on gastrointestinal tract, including salivary glands, liver and pancreas, 749
pancreodochocholecystostomy and experimental production of gallstones, 843
- Pancreatitis, acute, following blood transfusion, 1065
- Papanicolaou, G. N.: Studies of spontaneous tumors in guinea pigs; tumors of stomach and intestine, 218
- Papilloma of choroid plexus; report of case and summary of recorded cases, 911
- Parabiosis, effect on hepatic changes following obstruction of common bile duct in rats, 196

GENERAL INDEX

- Parathyroid, effect of thyroxin and anterior pituitary growth hormone on endochondral ossification; species used: rat, 334
in Infancy, 1042
mechanism of parathyroid hormone action, 625
- Parr, E. I.: Relationship of coccidioidomycosis to calcified pulmonary nodules, 31
- Parsons, R. J.: Experimental histoplasmosis in mice, 229
- Pathology, experimental, teaching of, 75
- Peale, A. R.: Kaposi's sarcoma; critical survey, 413
- Pearce, J. M.: Susceptibility of heart of rabbit to specific infection in viral diseases, 319
- Pectin, experimental studies in cardiovascular pathology; pectin atheromatosis and thesaurosis in rabbits and in dogs, 883
- Peers, J. H.: Equine encephalomyelitis (Western) in man; histologic and anatomic study, 1050
- Periodicals, Federation Proceedings, 469
- Petrolatum, standardization of tuberculin with aid of guinea pigs sensitized by killed tubercle bacilli in liquid petrolatum, 73
- Phagocytes and Phagocytosis: See Immunity; Leukocytes
- Phosphorus and Phosphorus Compounds, pathologic effects produced by deficiency of single metallic and nonmetallic elements, 454
- Pierce, M.: Cultivation of human leukemic leukocytes on chorioallantoic membrane of chicken egg, 538
- Pituitary Body, effect of thyroxin and anterior pituitary growth hormone on endochondral ossification; species used: rat, 334
suprasellar tumors related to pars intermedia of hypophysis, 13
traumatic hemorrhage into pituitary gland, 431
- Pituitary Preparations, effect of thyroxin and anterior pituitary growth hormone on endochondral ossification; species used: rat, 334
- Placenta, bilateral cortical necrosis of kidney; report of 2 cases, 866
effects of progesterone on sex organs and on production of placentoma in female guinea pig, 49
- Placentoma, effects of progesterone on sex organs and on production of placentoma in female guinea pig, 49
- Plants, elements necessary for plant growth, 467
- Pleura, localized pleural mesothelioma; investigation of its characteristics and histogenesis by method of tissue culture, 951
- Polevitzky, K.: Bacterial morphology as shown by electron microscope; structural differentiation within bacterial protoplasm, 199
- Polysaccharide: See Saccharides
- Popper, H.: Variation of vitamin A fluorescence in cyclic changes of ovary, 647
- Poppit, R.: Myocardial lesions in myasthenia gravis; review and report of case, 557
- Portal Vein, congestive splenomegaly (Banti's disease) due to portal stenosis without hepatic cirrhosis; aneurysms of splenic artery; report of case with necropsy, 423
- Poser, L. C.: Papilloma of choroid plexus; report of case and summary of recorded cases, 911
- Potassium, pathologic effects produced by deficiency of single metallic and nonmetallic elements, 455
- Potter, E. L.: Heterotopic brain tissue in lungs of 2 anencephalic monsters, 1009
- Povolny, C.: Regeneration of rat liver at different ages; metabolism of embryonic, neonatal and regenerating rat liver, 208
- Pregnancy, bilateral cortical necrosis of kidney; report of 2 cases, 866
skeletal abnormalities induced in rats by maternal nutritional deficiency; histologic studies, 375
variation of vitamin A fluorescence in cyclic changes of ovary, 647
